MASIT ICT Olympic Games 1/2

МАСИТ 2010
СТУДЕНТСКИ ИКТ ОЛИМПИСКИ ИГРИ

<u>Event organized on behalf of</u>:

✓ the employers for the Macedonian ICT industry with <u>the support of the educational institutions</u>.

A contest or a job fair in which the students from almost all Macedonian universities will take part and will compete in several disciplines.

- ✓ The event is aimed to <u>select the best students in the country in the field of ICT</u>.

- ✓ The event will also <u>offer employment</u> of the best students.

- ✓ An opportunity to <u>bridge the gap between the industry and the academia and will affect the adjustment of the curriculums of the Academia with the needs of the industry.</u>

Event disciplines:

- **Programming:**
  - Java
  - .NET
  - Embedded
- **Computer networks**
- **Databases**
- **Web design**
- **E – business**

The disciplines were determined by the ***Working group for the Education and Work Force Developmenet***

Event components

Regardless of the discipline, the contest will be consisted form the following **4 components**:

❖ Test for theoretical knowledge
❖ Test for practical knowledge
❖ English knowledge test   (same for all disciplines)
❖ Personality test   (same for all disciplines)

The questions for the test for the theoretical and practical knowledge will be made by specific MASIT Working Groups.
University representatives and specialists from the Macedonian ICT companies will be a part of the Working Groups.

Involved Educational institutions

- Faculty of electrical engineering and information technology, Skopje
- Faculty of natural science and mathematics, Skopje
- Faculty of economics, e – business department, Skopje
